

FVWP Summer Institute 2011-06-21

Hi, friends. We've assigned a variety of tasks, and sometimes it's difficult to remember everything. Here is a brief check-off list for you.

1. Demo Lesson. Be sure you post all work on Wiki for participants' future reference.
2. Reflective Analysis. Following your demo lesson, please complete the reflective analysis and email it to the facilitators.
3. E-Anthology. Please post an original piece at least once in Open Mic, Classroom Matters or A Day in the Life AND respond to another writer.
4. Inquiry Project. Your plan is due on July 8.
5. FVWP Anthology. You will need to submit an original piece as well as a biographical entry for the About the Author section.
6. Log. You are responsible for a log on your assigned day. It would be GREAT if you would upload it onto E-Anthology and the Wiki.
7. Professional Book Study Groups. Ask your group about the reading schedule and start thinking about the Glogster that your group will share.
8. Fall Reunion/Inquiry Project reflection paper. In October we will meet (TBA) to share the results of our inquiry projects. You will need to submit a reflection paper as well as share some type of representation of your project and how you implemented it in your classroom.
9. Clicks and Clunks. Please share your C&C lists.
10. Continue to play with technology.
